

Winter Home Maintenance

checklist

Take time to prepare your home with this helpful checklist:

- Clean ceiling fans and light fixtures
- Check caulking and weather strips around doors
- Declutter, clean and spruce up home
- Change the air filters
- Test smoke detectors and inspect (or install) a fire extinguisher
- Change batteries in carbon monoxide detectors
- Seal cracks around windows and doors
- Have your furnace and heating system inspected
- Clean dryer vents
- Check exterior paint
- Prune trees and shrubs before spring growth begins
- Inspect plumbing for any leaks
- Vacuum heat registers and heat vents
- Deep clean appliances
- Check for icicles and ice dams
